

## PrismEnvironmental® Bio-Technology Products Enzymatic Grease Trap Cleaner

Digests grease & eliminates malodours the natural way! It releases billions of colony forming bacterial spores, which feed on grease by releasing grease specific enzymes. As these bacteria feed on grease, they multiply exponentially to form more bacteria that digest more grease. This process continues until all the grease is consumed, eliminating foul odours, blockages and the need for costly maintenance services.

### Benefits:

- High bacterial count, over 25 billion of natural, non-pathogenic, fast acting bacteria per litre.
- Digests organic matter such as fats, carbohydrates, proteins etc.
- Eliminates source of bad odours in grease traps naturally.
- High performance, biodegradable detergent provides superior cleaning

### Directions:

Clean grease trap before starting treatment. For best results, the product should be pumped into the trap at night or when the traps are being used the least. If not using a pump, pour product into sink closest to the trap and flush down with a cup of lukewarm water. Add product as follows:

<u>Grease Trap Size</u>	<u>Product Dosage</u>
Under 2 cubic meters	Add 250 ml. daily
Over 2 cubic meters	Add 500 ml. daily

Specification: Contains natural bacteria, readily biodegradable surfactant, green food colouring and a proprietary fragrance.

WHMIS Classification: Not regulated under WHMIS regulations.

Product Code: BT300-20    20L Pail  
BT300-200    200L Drum
